

## Horizontal Band Sealer Model 552

The 552 is a floor standing horizontal continuous band sealer for applications requiring speed and convenience. It has an integrated conveyor can be tilted up to 30° to facilitate bag handling. In addition, the seal head and conveyor can be raised or lowered so that the seal position is between 28" to 36" from the floor. Casters come standard on this machine, making it easy to move.

### Standard Features:

- Sealing width:  $\frac{7}{16}$ "
- Electronic proportional temperature controller,  $\pm 3^{\circ}\text{C}$  range with maximum available temperature of  $300^{\circ}\text{C}$
- Digital temperature readout for precise temperature setting and monitoring
- Sealing speed adjustable from 0–400 inches p/min
- Adjustable pressure on sealing jaw, cooling jaw and pressure roller
- Integral conveyor

### Options:

- Pouch trimmer for trim before seal for neater finished package appearance
- Hot stamp printer for printing lot information on pouch
- Embosser for indent marking lot information on pouch
- Stainless steel frame and cabinet
